LUNA 2

Luna 2 is the next generation Luna universal composite. Luna 2 has an improved unique blend of fillers that were researched and developed at SDI to deliver the enhanced handling, very high radiopacity and reliable mechanical properties. Luna 2 is BPA free for health-conscious patients. Luna 2 makes placing a composite easier than ever.

LUNA FLOW

Luna Flow is a new extra strong flowable composite that is available in two viscosities.

With a blend of fillers in different ultrafine sizes to optimize handling, mechanical and optical properties, Luna Flow offers high radiopacity, control over the application, easy and accurate shade matching with colour stability, excellent strength and wear resistance
